

Prison Transfer and Border Agency Jany M1 Vehicle Seating Solutions

We are leading suppliers of M1 seating solutions to Prison Transfer and Border Agency sectors and can offer a wide range of robust seating solutions that not only perform well in these tough environments, but can also offer "calm" in these often stressful high tension environments.

We offer individual M1 seating for each occupant, coupled with our heavy duty armrests can give the person a feeling of their own "space" reducing the risk of coming into contact with other occupants in the vehicle and more importantly giving the officers their own space whilst keeping a close eye on the people in their care.

We can also supply our M1 seats with our unique Jany seat designed for handcuffed occupants, which enables the officers to fasten a three point belt without needing to take off the detainees handcuffs, again reducing another stressful situation for both the officers and the detainee.

Our Jany M1 seats are fully approved for the latest Type Approval legislation for a wide range of popular vehicles

Our Range of M1 and N1 Homologated Seating Solutions

We have a wide range of M1 and N1 homologated seating solutions to cover a vast range of vehicles, applications and budgets
