

ULLMANSTOLEN

IF YOU PLANNED ON SITTING FOR A WHILE

Lab-Lite

The chair illustrated is fitted with extra items

UllmanStolen Lab-Lite is for you who works in environments that has a higher working height than normally (e.g. laboratories, receptions etc.) and were you need to change between sitting and standing position. This chair can be equipped with special upholstery for working environments that has extra control in clinical cleaning.

Backrest

The design of the backrest will give you support for the back. The shape will also give freedom of movement for the arms and shoulders. The spine will have the same shape as when standing upright.

Armrest

The short, adjustable (width, depth, height) armrests give you the possibility to sit close to your working area.

Seat

The patented broken seat will give you the opportunity to sit in balance without taking help from the knees or feet. With help of the unique seat you will have the same balanced position on the spine as when standing. The chair will fit all, due to the infinite adjustable seat depth, regardless if you are short or tall.

Tilt mechanism

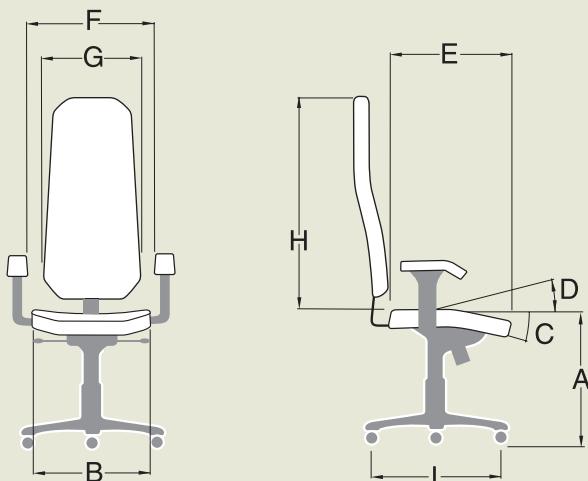

Creates a varied sitting. By leaning backwards you will use the support from the backrests unique design for relaxation.

Foot ring

The foot ring is to be used as a feet support when leaning backwards.

Foot cross

The foot cross is available in black plastic or polished aluminium.
